

An aerial photograph of a steep, forested hillside. A large, light-brown, eroded area runs vertically down the center of the slope, indicating a landslide or construction site. A winding road with a yellow line runs along the base of the hill on the right side. At the bottom of the hill, a river with white water rapids is visible. The sky is overcast with grey clouds.

ABOUT US

The Humboldt Builders' Exchange (HBE) is a full service Planroom for the commercial and residential construction business with the main goal of providing members with the latest information and documents for a wide variety of construction projects in Del Norte, Humboldt, Mendocino, Lake counties and throughout the state of California. Members include general contractors, subcontractors, suppliers and others affiliated with the industry.

Online access to full project information, drawings, specifications and addenda is available 24 hours a day, 7 days a week through HBE's Online Planroom Service.

Since 1962, the HBE has been dedicated to our members, promoting their growth through the largest, most accurate onsite plan room and online plan room in the area.

A lot has changed over the years, but the principals remain the same – a time proven and strong commitment to provide members with the services they need to do their jobs better and more efficiently.

NATIVE OWNED | COMMUNITY PARTNERS | TRUSTED ADVISORS

The image is a promotional graphic for LACO Associates. It features a central logo with the company name 'LACO' in large blue letters, followed by 'lacoassociates.com' and the tagline 'NATIVE OWNED | COMMUNITY PARTNERS | TRUSTED ADVISORS'. To the left of the logo, a list of services is provided: 'LAND SURVEYORS', 'CIVIL ENGINEERS', 'GRANT WRITERS', and 'PLANNERS'. The right side of the graphic is a collage of six images: a drone flying over a red field, a landscape with mountains, two people standing next to a surveying instrument, a road winding through a green field, a surveyor using a tripod-mounted instrument, and a close-up of a surveying instrument.
